

LIGHT DOTS

Luce al punto giusto

Light in the right place

Questa nuova serie di prodotti risponde al bisogno di una illuminazione puntuale e precisa, oltre che alla necessità di creare contrasti di luce che guidino il fruitore nell'esperienza e comprensione degli spazi. *Altair* e *Wizard* sono progettati per essere l'illuminazione principale della stanza, che si tratti di living o di ambienti espositivi. *Zeus* e i *Mini* invece assolvono a quella specifica: sottolineano un percorso da seguire o pongono l'accento su quei piccoli oggetti che richiedono più attenzione, invitando ad osservarli.

Accomunati da una presenza minimale e discreta, questi punti di luce saranno in grado di valorizzare tutto ciò che illumineranno: oggetti, spazi ed esperienze.

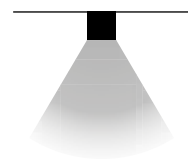

This new series of products perfectly meets the demand for a punctual and precise lighting and it also enables to create lighting contrasts which help us through the experience and understanding of the surrounding space. Altair and Wizard are thought as main lighting sources of the room, be it a living room or a showroom, while Zeus and Mini series have got a more specific task: they can underline a path to be followed or they can emphasize those small objects for which a more careful observation is required.

Despite a minimal and discreet presence in the space, all these lighting sources will be able to enhance anything they will light up: objects, spaces and experiences.

Altair permette di ottenere la massima versatilità di utilizzo grazie al suo design minimale che lo rende collocabile in ogni ambiente, applicandolo a soffitto oppure a parete. La sua struttura meccanica permette una regolazione completa tramite l'inclinazione e la rotazione a 360°. Il corpo è in pressofusione di alluminio con riflettore brillantato per una migliore gestione del fascio luminoso.

Altair allows multiple solutions in terms of application. Thanks to its essential design, it can be installed in any environment either as ceiling fitting or as wall bracket. Its mechanical structure enables adjustability and 360° rotation.

LIGHT DOTS

Wizard si distingue per la sua presenza discreta grazie al montaggio a raso che permette di fondere l'apparecchio con l'architettura della stanza. Per questo motivo è possibile inserirlo in qualsiasi ambiente, dove può essere orientato a seconda delle proprie necessità. Le due dimensioni disponibili del corpo in acciaio offrono la possibilità di utilizzare un'ampia gamma di lampade per l'illuminazione a soffitto.

Wizard distinguishes itself for its discreet presence thanks to its trimless recessed mounting system which softly melts into the architecture of the room. It's suitable for any architectural environment and it can be adjusted according to one's needs. The two available sizes allow a wide choice of lighting sources.

Mini 105 Nero

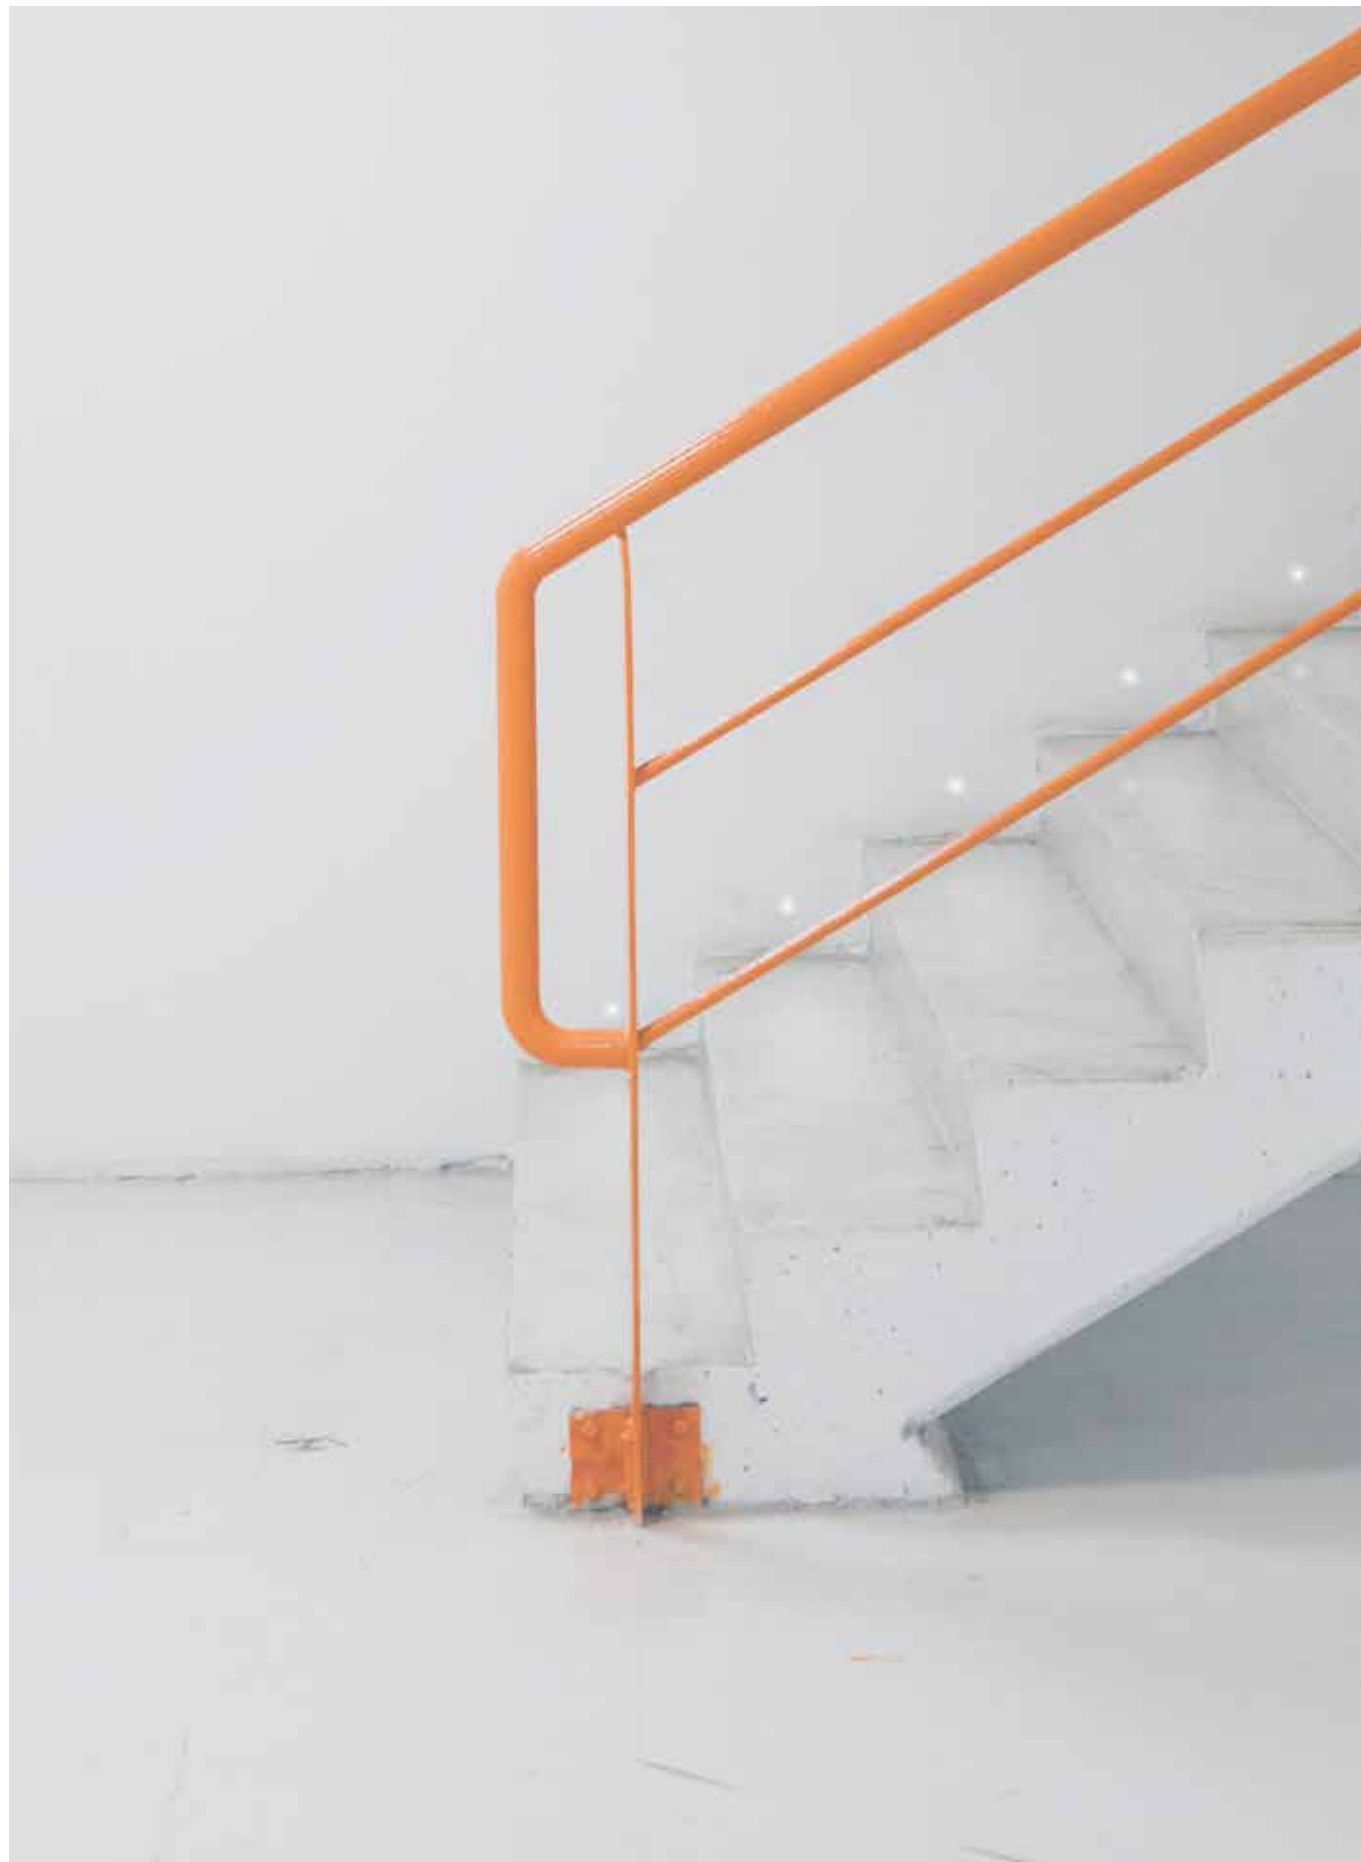

Zeus Bianco

La serie *Mini* vanta dimensioni ridottissime e diversi angoli di luce per quelle situazioni in cui è necessario porre l'accento su certi oggetti o aree dell'ambiente. *Zeus* - con un ampio angolo di illuminamento e presenza minimale - è idoneo per situazioni espositive come scaffalature museali o vetrine. Tutti i corpi sono in pressofusione di alluminio.

Mini series is characterized by small dimensions and different beam angles which are ideal as accent lighting on particular objects or as dot lighting in some areas of the room. Zeus - with its wide beam angle and its minimal presence - is suitable for display lighting, be it in museums or showcases.
